Jeremy Haley (jhaley@eecs.uic.edu) writes:

Re: 'Micro' broadcast stations

I am a graduate student in Electrical Engineering at the University of Illinois at Chicago. Our campus and adjacent community could certainly benefit from a broadcast service. Obtaining FM broadcast authorization at 100 Watts near downtown Chicago would be a significant challenge.

Evidenced by my activities as an extra-class amateur radio operator, I have strong interests in communications technology. Please consider my support in favor of a properly-coordinated, low-power community broadcast service.

Thank you.
